# CAMILLE CELONE

UX/UI Designer & Front-End Developer

## ABOUT ME

I grew up in small towns in Vermont and New Hampshire but now live in Chicago while studying at DePaul University.

I like to create helpful apps and websites by designing intuitive interfaces and translating those interfaces into useable code.

Regardless of whether I'm creating sketches and prototypes or writing HTML, CSS, and Javascript, I find joy in knowing that my efforts will benefit others.

## SKILLS

Adobe Photoshop
Adobe Illustrator
Adobe InDesign
Adobe XD
Axure
HTML
CSS
Javascript
Vue.js

## EDUCATION

### DePAUL UNIVERSITY

**BS in Interactive and Social Media**, June 2018
Development Concentration
Minors in Graphic Design and Information Technology
GPA 3.85/4.0

**MS in Human-Computer Interaction**, expected in 2020

## EXPERIENCE

**Center for Robust Decisionmaking on Climate and Energy Policy: Research Assistant**, Jan. 2017 – Present

- Develop user-configurable enhancements for a global, dynamic, geospatial data visualization platform.
- Strategize and streamline user interactions across a wide variety of data visualizations including maps and charts.
- Design highly functional, iterative, interactive prototypes using Axure.
- Create user testing protocols to test prototype iterations and identify design problems.

**Perry Mansion Cultural Center: WordPress Developer**, Sept. 2017 – Nov. 2017

- Collaborate with client and team members to determine the needs of a new website for Perry Mansion Cultural Center.
- Co-develop a functional WordPress site that meets the client's needs and offers a visually pleasing and engaging user interface and easy-to-use back-end for client use.

**Arrived: UX/UI Designer**, Feb. 2017 – May 2017

- Create prototypes of redesigned Arrived Android and iOS applications using Axure and Adobe Experience Design.
- Design a chatbot that integrates with Arrived applications for submission to the NYC BigApps competition.

**Long River Gallery & Gifts: Front-End Developer**

- Front-end design and development for a privately-owned fine arts & crafts gallery in White River Junction, Vermont.
- Collaborate with back-end developer to create cohesive, client-editable platform.
